

CBX SecureShip™

YOUR TURNKEY SOLUTION FOR SECURE
TEMPERATURE-CONTROLLED DELIVERY

NEW EXPANDED
LOGISTICS SERVICE

Safer, Easier, More Secure than Standard LTL Logistics

TRUSTED NETWORK PARTNERSHIP

The SecureShip™ service manages everything from pickup and transportation to delivery, with en-route cellular monitoring available when the ClimateCrate™ is used.

PRODUCT INTEGRITY PROTECTION

Pre-planning and route optimization using qualified critical material drivers assures load custody, transit product safety and optimizes overall cost efficiency.

STREAMLINED OPERATION

The integrated SecureShip service creates ideal conditions for end-to-end compliance in cold chain performance for short- and long-haul over-the-road customer management.

PICK-UP

TRANSPORT

DELIVERY

Uncompromising Security

- Drivers reviewed for experience, training completion, and required insurance coverage.
- Every vehicle equipped with independently installed thermometers, monitoring systems, and HVAC systems.
- Exclusive use of vehicles ensures temperature stability and prevents cargo access during transit.

Unmatched Service

- 2012 or newer vehicles available nationwide.
- Direct drive from pickup to delivery; no intermediate stops.
- Real-time GPS tracking with consistent direct-to-client updates.

Built-In Flexibility

Available for specialized, temperature-sensitive cargo, the ClimateCrate adapts to varying product needs and transit conditions—ensuring safe, reliable delivery every time.
